Curley Dons the Black Cap in Dublin.

A Boller Explosion in Russla: Twenty-Seven Lives Lost-A French Protectorate Asked-The French Moving Against Tonquin-The Irish Balance of Power.

Ireland. Dublin, May 18 .- Daniel Curley, the second man convicted of the murder of Cavendish and Burke, was hanged at Kilmainham Jail this morning. The jail was gnarded by a force of military similar to that on the occasion of the

hanging of Brady, on Monday last,

Canon Kennedy and Father O'Reilly arrived at the prison at an early hour to attend Curley. After the priests had prayed privately with the condemned man in his cell mass was performed in the prison chapel, in the presence of the Governor and Wardens, where Curley received the sacrament. Meanwhile a group of women which had gathered outside the prison were on their knees saying the Litany for the Dying.

When the black flag announcing that the execution had 1. en place was hoisted over the prison every man in the crowd outside, which numbered barely a thousand, uncovered his head, and murmurs of sympathy with Curley were uttered. A rush was then made by the crowd for the garden near by, where Curley's relatives had assembled, and where his father was kneeling and praying for the repose of the soul of his son. The people soon dispersed

Curley walked to the scaffold with little assistance. He seemed to be resigned to his fate, but was hardly firm. He declined to make any statement touching his connection with the crime for which he was executed. His death was instantaneous, In a letter which Curley wrote to his wife he said: "I will take my sccrets to the grave with me, and leave those who are at freedom to enjoy it. I will die in peace, forgiving my enemies."

LONDON, May 18 .- The four defeats inflieted on the Cabinet by Irish votes have thrown the Libernls Finto a wild state of anger. In speeches, articles and resolutions the members of the Irish party are denounced as "Papists," "rebels," "an unscrupulous faction," etc. The outburst of rage is caused by the possibility that they may come to hold the balance of power in the next Parliament. The Echo explains the position in these remarkable words: "The Irish people have the game in their hands unless we disfranchise them. A Young Lady Shoplifting.
Chicago, May 18.—A pretty and Initiality gent young woman, giving the name of

Rittie Mitchell and said by the poince to be the daughter of a member of the New York Legislature, was arrested this afternoon for shoplifting.

Her plan, as she confessed, was to steal nrticles and soon after bring them to the store from which she got them and get their value in money, stating that she had bought them, but had decided they were not what she wanted. She refused the geods, as she always retained and showed the price tags.

#### BEER MEN IN COUNCIL.

It Resolves on the Subjects of Individual Liberty and the Elghts of

DETROIT, May 18 .- At the meeting of the brewers yesterday morning the attendance was light. The report of the Committec on Resolutions was adopted as follows:

"Resolved, That the familiers of these States and their perpetual, indestructible union, while they created State and Fedeval Governments for the proper and prudent dispatch of public business, were careful to guard that personal freedom of the citizens, which object all well-organized communities preserve: that the only limit they placed to the action of an individnal was where it invaded the rights of any of his peers; that while it is the duty of the State to forbid offenses against property and person, and punish infractions of the laws, any or all attempts to prescribe dress, food. or drink, or regulate private manners, at the arbitrary will of the majority, or make men moral by the mundate of the Legislature, are not only futilo themselves, but mischievous in their consequences and leading to tyranny on one side and contempt of the law on the other, that they are beyond the scope of the power of any goverament established by the people.

"Resolved, That the propriety of the manufacture of malt liquors, a drink food recognized as healthful and needful by instincts of the human race and habits of temperate men, the consumption of which for centuries has been continuous and contemporry with the growth of prosperity, progress, and the most civilized enlightment of the reaple, has passed beyoud houest, intelligent controversy, and is only denied by idious and fanatics; that we, as brewers, have the same rights, neither more nor less, as any body of men engaged in a necessary, beneficial influstry, and that we shall peaceably and tirmly nuder the law and by lawtal means defend those rights, and in that defense we confidently ask the aid and cooperation of all honest citizens in the maintenance of good order, the preservation of the rights of property and the freedom of person, and in the free enjoyment of any innocent pleasure which does not lufringe upon the rights of others.

"Resolved, That in the future, as in the st, we shall not assume to infl avert legislation by corrupt, degraded methods, nor shall we beg or buy justice; and, relying upon the merits of our cause, shall submit the question of sumptuary luws to the calm determination of the people; that we know of no code of political ethics which forces us to sit in tame iunction while our rights as citizens are invaded and our property confiseated; and, therefore, when any political party, professing a devotion to a policy of administration for the benefit of all, shall be for the support of a band of zealots by supporting a law dictating to n en their food and drink, and degrading them by placing their private conduct under control of others, we shall sever the accustomed political tics, and actively a d earnestly support whatever party may sustain equitable government and personal freedom, and we upon all those in our craft not already affiliated to join with us, form local associations in connection with ours, and aid us in the dissemination of official facts and legitimate arguments, so that the reat mass of people, who have no selfish interest to serve on the one side, nor fanatical impulse on the other, may decide this controversy under the light of impartial judgment and cool, common sense."

Then followed resolutions urging Congress to lower the tax on beer and bottles. Appropriation« were recommended to test the case from Kansas, and to aid the Maryland brewers in their contest.

A Wild Girl of the Mountains.

PHILADELPHIA, May 18 .- On the northern slope of South Mountain, in Mill Creek Township, Lebanon county, lives a family, among whom is a girl resembling a wild woman, and who is kept more like a beast than a human being. The family consists of but three persons, the father, a son, and the girl in question. They occupy an old log hut, which is nearly ready to tumble down. The girl's mother died when she was a child, and the poor creature has had no one to train her. Her mind has always been weak, and she was neglected entirely In every way. She has not been inside a school-room in all her life; she cannot read nor write. She is very shy of strangers. When she sees a person approaching her she disappears in the bushes and rocks on the mountain. In the spring, it is said, her father compels her to go out on the hill with a flock of turkeys, which she has so trained that they follow her through the thickets and woods from morning until night. Kind neighbors have several times attempted to catch the girl, when she was out with the turkeys, but all to no purpose. She runs at the sight of a person and disappears, with the fowls at her heels. Wheat bread, the neighbors say, is unknown to the creature; that her principal dlet was corn-dodgers, and a sort of paste made of dried rye floor. Her father generally acts in the capacity of cook and baker. Her dress consists of old rags, which are tled about her body. Some time ago one of the neighbors took compassion on her, and made a new calico dress, which is probably the only one the girl has worn for several years. Headwear and shoes are unknown to her in her rambles through the rough woods and mountains. She has long auburn halr, which she wears hanging down over her shoulders. The household affairs of the wretched family are said to be very primitive, there being but one bed in the house. Stories of a most outrageou character have been circulated about this family. It is stated by good authority that a number of citizens will call the attention of the proper officials to this family and have the matter remodied.

# GONE DOWN IN FLAMES.

The Steamer Granite State Burned in the Sound.

Five Lives Known to Be Lost- A Bride Among the Drowned-The Ship and Cargo a Total Loss.

HARTFORD, CONN., May 18 .- The steamer Granite State, of the Hartford Transportation Company, caught fire at 2 o'clock this morning below Goodspeld Landing, thirty uniles below llartford. The fire started in the forward part of the boat and spread with fearful rapidity.

The boat headed for the dock under full steam, and the engineer stuck to his post though nearly burned to death. The passenger list included about twenty-five persons. There was wild confusion in the scramble for life. The ferryboat at the dock pushed alongside the burning vessel

and most the passengers were sived. Five people were lost, as tollows: Mrs. C. L. Muine, of New Haven, on her bridal trip, jumped into the water with her husband and was drowned. Her hasband was saved by grasping a paddle wheel. The second cook, colored, named Jackson, is burned to death. A young German, name unknown, was drowned.

A fleshy man, name unknown, is missing and several more can not be found. The books were all destroyed and no list of the passengers was preserved. As the fire raged the boat drifted away from the dock threequarters of a mile to Toad's Island. It was burned below water's edge, and is a total loss. The vessel had a full cargo and eleven horses, nine of which were burned, among them a very valuable pacer.

There were also many barrels of kerosene on board, which added fuel to the flames. Sevenly-five of these barrels were thrown averboard. The fire raged so terrifically that the crew and passengers harely had time to save themselves. The officers acted splendidly, and doubtless prevented a panic.

The Granite State was built in 1853, and was considered the best sea boat on the Sound. She has always run in the llartford Line. She was insured for \$40,000. and valued at \$60,000.

## THE WARRANTS READY.

Sheridan and Walsh in Hourly Expectation of Arrest-Tynan Does Not Maulfest.

New York, May 18 .- A Washington special to-day says: Two months ago Minister West sent a note to the State Department, asking for Sheridan's arrest on the charge of complicity In the Phoenix Park assassinations. The warrant was issued and sent to the British Minister. He held this warrant for some time, awaiting the arrival of proof of the charges, so that the arrest of Sheridan could be had and extradition ordered if proof was deemed sufficient. This time has now arrived. Sheridan, Walsh and Tynan have been indicted, and the State Department is in daily expectation of a demand for warrants for the arrest of the last two mentioned. Minister West said to-day he had notified the Consuls to keep a sharp look-out for Tynan, and to cause his arrest the moment they had discovered his whereabouts. He will be arrested on on a United States Commissioner's warrant, which can be done without any demand being made on the State Depart-

He said also he would not ask for the arrest of Walsh until he had the evidence against him. Yesterday Minister West forwarded the warrant for Sheridan's urest to the British Cousul in New York with directions to have it served the unment the evidence against him arrives from England. This evidence has now urrived, and hence the pending arrest of Sheridan. No turther steps are likely to be taken at the State Department until after the examination of Sheridan by the United States Commissioner in New York. He will forward his report to Washington, und if the charges have been proved and are deemed sufficient to warrant extradition an order will be issued from the State Department ordering him to be delivered into the custony of the British

A reporter of the World at a late hour last night found Mr. Sheridan at Prospect Hall, on Fourteenth street. He was in company with Mr. John Walsh, Mr. Frank Byrne, Major Horgan and two other friends. They were seated at a table enjoying a social chat. The reporter communicated the substance of the dispatch to Mr. Sheridan, who listened coolly, and expressed his conviction that he will not be extra-

#### STRANGE FINANCIERING.

By Which a City Loses Sight of Hall a Million.

PHILADELPHIA, May 18 .- Since the last meeting of the Sinking Fund Commissioners, a mouth since, when a settlement was made in the sale by the city of 30,870 shares of stock of the North Pennsylvania Railread Company to a syndicate comprising President Comly, of the North Pennsylvania road, Edward C. Knight and other wealthy capitalists, the discovery has been made that about nine or ten years ago, before the sale had been consummated, a stock dividend was declared by which the city was entitled to about 3,000 additional shares. This stock the city nover received until within the past fortnight, when the North Pennsylvania Company voluntarily returned it to the City Treasurer, and it now stands to the credit of the Sinking Fund. Just how such a valuable dividend could have been overlooked for so long a period is a complete mystery, so far as the Sinking Fund Commissioners are concerned.

The value of stock, quoting it at yesterday's price, is \$201,000. In addition to this will be added nine or ten years' dividends, [which will increase the total amount involved to nearly a quarter of a million dollars. It is authoritatively stated that, had the railroad company not returned the stock, the Sinking Fund Commissioners would never have been any

#### FLORIDA LANDS.

Sir Philip Hanghten Clarke's Opinion of the Land of Flowers.

Philadelphia, May 18.—Sir Philip Haughten Clarke, of London, England, has arrived in this city from Florida. Ile ls the representative of English capitalists who purchased a large quantity of land from the Disston Company, and his visit to America has been in connection with other purchases by a new English land company. Sir Philip arrived in this country in March and he has since been in Florida examining lands. He says:

I had been in Florida last year, but this time I made a very extcuded trip. I went to St. Augustine, I examined the land in that vicinity, then to Sanford, Kissimmee City, through the canal of the Okeechobes Company and over Lake Cypress to Kissimmee Lake. Returning to Jacksonville, I went to the Cedar Keys and took a steamer to Punta Rossa, and up the Caloosahatchie river to Fort Myers and Fort Thompson Falls, and through the canals of the Okeechobee Company to Lake Okeechobee. I have thus seen the greater portion of Florida and personally examined the lands.

What were your impressions?

My Impression is that the whole lower portion of the State can be used to raise sugar cane when the cauals are fully constructed. The canals have so far reduced the waters in the lakes beyond expectation, and the feasibility of the drainage scheme is beyond question. I think when all the proposed canals are constructed,

Lakes Flirt and Bonnet will cease to exist. What is the nature and quality of the land reclaimed?

Nearly all of pure vegelable mold, with here and there a sort of saudy marl run-ning in veins. The whole country is capable of growing the pineapple, banana, cocoanut, sapadilla, cherry-moyer, guava, all sorts of grapes and tropical fruits. The chief use to which these lands will be put will be the raising of sugar, and I think that all the sugar needed in this country will be raised in Florida within a very few years. When I return to Londen I shall organize a large company for the purpose of buying these lands, and cultivating sugar. I shall also purchase live or six thousand acres of land and go into the the cattle-raising business, which is quito profitable, and can be made more so by improving the breed.

What are Florida's prospects? The Okcechobee Company is energetically draining the low lands, and opening communication throughout the whole lower patr of the State. This year there will be two steamers running from Kissimmee City to Punta Rossa, through Lake Okeechebec. The canals which will be constructed will be sufficient to reclaim at east 500,000 acres of sugar land There is a good deal of interest in these

lands in England? There has been for several years, and still is, a great interest in Florida lunds in London. There are now in London five or six schemes which involve a capital of nearly a million sterling, and other large operations, such as a steamship company and a ship canal, are projected.

#### A HORRIBLE TRAGEDY.

A Dridegroom Goes Mud In the Bridgi Chumber.

NEW YORK, May 18 .- The Razon, of Moutevideo, publishes the following account of a horrible affair which took place recently at Rio Grande Del Sur, near to the Urugunyan frontier:

"A young furmer was bitten by a mad log, and remedies were immediately upplied to the wound. Camerization was resorted to, and there was every reason to believe that the virus had not entered the victim's system. When the accident oosurred the young man was about to marry, but in consequence of the untoward occurcence, the ceremony was postponed for three mouths, when the medical men, who were consulted on the case, gave it as their unanimous opinion that there was not the slightest ground for apprehending any danger from the bite. The marriage took place on the farm, and was celebrated with the enstomary festivities. After the auptial supper was over, the bridegroom appeared to be seized with a lit of melansholy. One of love's caprices, said someoody. After supper came the bull, and when this was as its height, the newly wedded couple withdrew from the festive scene, and retired to their apartment. About an hour afterwards the house resounded with l'evocious cries intermingled with shricks and groams. As soon as the guests had recovered from stupefaction, they started in the direction of the cries. They proceeded from the nuptial chamber. The door was burst open, and a horrible spectacle presented itself. On the floor lay the young bride in a pool of blood. She still breathed, but her body was torn and bitten as if she had been seized by a tiger. In a corner of the room was the bridegroom, covered with blood and foaming at the mouth, serntching, biting and tenring away at the wall and immiture. With a sudden bound he sprang like a tiger upon the invaders of his lair, and he would have made one or more victims had not a brother of the dying bride sent a bullet crashing through the mnd man's brain.'

#### HOMICIDAL MANIA.

A Horrible Murder of His Friend by a Maniac.

BALTIMORE, MD., May 18 .- One of the most horrible murders over committed in this State occurred Thursday about two miles from Ellicott City, the county seat of Howard county. Edward Hanson was the murderer, and Charles R. White was his viotim. Hanson has recently shown some evidence of insanity His special hallucination was that he had sworn by the bedside of his dying mother to revenge her death and that of his sister. He seldom referred to any of these things, however, and few people

knew that he was not entirely sane. Mr. White, who was an aged man of sixty years, drove from his farm to that of Hanson. Hanso nwas not in the house at the time, and Mr. White went in and sat

down. He started to leave, and had just renched the ground when llanson came around the corner of the house, almost completely out of breath, as if he had been rouning at full speed, and carrying in one hand a revolver and in the other a huge butcher-knife. Without a word of warnlag he began firing at Mr. White and shot him once in the leg, a second time in the face and a third time through the head, the bullet crashing through his brain and killing him instantly. Not satisfied with this the infuriated maniac rushed upon his victim and with the knife cut his throat in such a manner as to nearly sever the head from the body.

After committing he crime llanson became calm and quiet again, but shows his insanity in that he manifests no regret for the deed, but claims that it was the will of heaven. The crime is all the more shocking because the two men have always been the best of friends and their familles lave always been on the most intimate terms.

An Inhuman Employer. Cuicago, May 18 .- The Executive Com-

mittee of the Cigar-makers' Union Thursday afternoon heard the testimony of slx young girls employed by one Behrman, on Kinzie street. It was shown they worked from 6 in the morning to 9 at night, and three nights each week, making bunches for cigars. The majority receive \$3 a week, and in order to make profit off this scanty pittance he charges them one cent a minute for lost time. When the Health luspectorvisits the place the proprietor has man aged to secrete the children under ago employed. Other tyranulcal practices are alleged, and it is claimed that this place is only a typo of others in the city.

#### MORMONS IN MARYLAND

Reorganization of Latter-Day Suints After a Lapse of Thirty Years.

BEL Ain, Mp., May 18.—After a lapse of thirty years, Hartford county has a return of Mormonism, and a number of its citizens are not a little exercised at its reappearauce. It is thought that the ideas of that creed have been working in that section of the community for several years, but the first puldic meeting since the revival of the doctrine took place yesterdny three weeks ago. The second public meeting was held on May 6. Both these meetings were held at the house of Joseph Eckert, a shoencaker and a farmer, residing near the Rocks of Deer Creek, on the southeast side

of the Rocks. Yesterday there was no meeting, but the subject was the topic of general conversation all over that region. The sect is known as the United Brethren of the Latter Day Snints. At the last meeting between 60 and 100 persons were present, the uniles outnumbering the females three

These Marmons believe in the divine institution of the Mormon Church by the prophet Joseph Smith, but repudiate the hurch in Utah, which they hold has departed from the true faith in engrafting polygamy upon the original Marmon doctrine. A good deal of suspicion is, however, entertained of the movement, lest it may clock Polygamist tendencies such as it is declared were munifested thirty years

#### RIVER INTELLIGENCE.

THERE is a decided decre se in railroad track laying for the first four months of this year. The figures are 1,450 miles for 1'8 and 2,300 for 1882. The decrease is said to be owing to the backward spring, but there may be other reasons in a more conservative policy. The States and Territories which lead in the construction gre: California, 170 miles; Utah, 156; New York, 115; Penn-ylvania, 93; Moictana, 86; Idabo, 85; Arizona, 84, and Missonri, 73. The estimated railway: building for the year is 8,000 miles.

Ir is estimated that the Florida Ship Canal, for the construction of which a company has just been formed, will cost thirty million dollars. Of this sum twenty-six million is said to have been subscribed, and engineers are to concionee the survey at once. The proposed route will leave the St. John River about twenty milles above Jacksonvillle, and thence on a direct line as nearly as possible to the Swance River, on the Gulf of Mexico, making a tidewater canal of less than 100 miles in length, and deep enough to float the largest ocean steamers from ocean to Gulf.

HON, J. PROCTOR KNOTT, the Democratic nomineee for Governor of Kentneky, was born near Lebanon, Ky., August 29, 1830. Time Secretary of the Navy has lately ndvertised for sealed proposals for the construction of three new steel vessels, for which the money was appropriated by the last Congress. Am ong the bidders is a firm at St. Louis which proposes to build there at its yards in that city. The flem maintains that in high water the Mississippi is navigable for vessels of the leaviest draught and it is anxious to secure the contract not only for the profits it may produce, but in order to prove that a cruiser of the dimensions required can be built at St. Louis and ticken to the Gulf with no difficulty whatever. Not n great while ago, a Government training ship of much less tonnage than the preposed cruisers, entered the jetties, at the month of the Mississippi, and attempted to steam up to St. Louis but it rever got tion as to whether it could ever be got back to the Gulf again. The water at that time was what was called "high ' and the impossibility of using naval vessels of any considerable size on the Mississippi was satisfactorily demonstrated. The attempt has never been made since. It is hardly probable that the Government will eare to experiment with the St. Louis bidders.

The Extradition of Sheridan, Walsh and Tynnu-The British Minister Guarded.

WASHINGTON, May 18 .- The report teleas some foundation. One of the attaches of the State department, familiar with the entire business, yesterday stated that so long : go as two months the British Government did de nand the extradition of Sheridan, and on that demand, following the provisions of the treaty of 1842, a warrant was issued by the State Depurtment for the arcest of Sheridan, Tynan and Walsk, not for extradition, but for examination, with a view to ascertain whether or not the evidence against them justified their delivery to the British authorities. The responsibility in damages for the arrest is thrown entirely upon the British authorities. The of Sheridan, Walsh and Tynan exancination is probable. The British Minister , has instructed ull British Cousals in the United Sintes to arrest Tynan, ugainst whom it is claimed there is overwhelming evidence of complicity in the Phonix Park tragedy. There is not so much certainty about the guilt of Sheridan and Walsh, and they are permitted to go free for the present.

The British Minister having been threatened with personal violence, in consequence of the reports that warrants for the arrest of Sheridan, Walsh, and Tynan have been issued, a guard of twenty men is held in ceadiness at the arsenal to repair at a ncinute's notice to his residence. The guard is in relief, so that it may be ready day or night. The disposition has been very quietly made, but will stand until the question is settled.

An Iron Strike Imminent. PITTSBURG, PA., May 18 .- The Iron situation is unchanged. Interest is increasing, however, as the date approaches for the presentation of the scale to the manufacturers for their signatures. Presi-Jarrett said last night that they would present last year's; scale next week, and if it was not signed by June 1, a strike would certainly take place, as the association would make no concessions, and the manufacturers are equally determined and positively assert that the scale will not be signed, unless the workmen submit to a reduction,

Hired Help.

Much has been written and man ferent plans proposed as to the be most e enouieal plan of hiring sary help about the farm. The ol mg, "n you want a job half done, send; if well done, go yourself," is very applicable at the farm, but, alas for human eichrauee! there are tim's when on an ordinary farm no one man can begin to keep up with the work to be done, and the farmer is obliged to look to some one else. On many of the larger farms only two, and many times three or four, hards are kept busy all the year around. and especially is this the case where much stock is kept, and where it is the rule to feed all that is raised on the farm and sell the products in cond-used forms. Where this is the ease hiring by the year is best, as by that means you are not expecting a change at the end of every month, your help gets hetter and bester posted as to your way of working and manners of feeding and attending to your stock, while the help, knowing he is sure of his place, takes more interest in his work and is better atisfied and will look more to the increst of his emplayer than if he were only working by the month. He soon understands what is required of him, and is better prepared to per orm his

### Deadly Weapons.

A detective frightened a young man nearly to death yesterday. The young man was standing on the corner when graphed from New York concerning the the detective tapped him on the shoulestrad thon of Sheridan, Tynan and Walsh der and said: "I shall have to arrest you for carrying deadly weapons." young man turned pale, and his lips quivered, and he stammered out that he never curried a revolver or a knife in his life. "Yes." said the detective, "that may be all right, but look at your shoes." The young man looked at his pointed, tooth-picked-toed shoes, and aske I what was the matter with them. Then the detective told him the slices were so sharp at the toes that if he should get mad and kick a man he would split him wide open. Then the detective winked, and said: "You may go this time, but don't let it occur again.' -1 cch's Milicankee Sun.

#### The Gambler's Drend. P.tisburg Telegraph.

It is said the greatest dread of a gambler is that he will be paralyzed. They nearly all expect to die from a shock of some kind. It may come from the fact that a great many of them have gone that way. If a man with a withered arm or leg should luppere in a gumbling house the dealer would quit les clour. Another dread of gamblers is a non who comes in to play with a cane in his hand. That is regarded as bad luck to the house.

#### The Station House Shooting.

John Moore, the colored man alleged have been shot and seriously wounded at the station house, recently, received no injuries beyond a slight scratch on the neck, and has made no complaint against Deputy Marshal Browning, the officer charged with doing the shooting. The particulars, us we have learned them from officer Browning, are as follows: Moore, who is a very powerful man physically, was drank and resisted arrest. Browning had gotten him into the center cell and was in the act of transferring him to the end cell, when Moore slammedthe iron door upon Browning's fingers, and at the same time exclaimed: "G-d d-n you, I've had enough of you," and seizing him by the throat pushed him hack against the wall. Browning tried to call for help, but was so choked he could not do it, and being unable to resist Moore, he drew his pistol and fired, inflicting a slight scratch on Moore's neck. Marshal Browning says that he is ready to answer to the charge in the courts
